

ACCESSORIES

Monarch Intake Valve

The Waterous Monarch features a Jamesbury Wafer-Sphere® high performance butterfly valve. This tough breed of butterfly valve delivers longer cycle life, tighter seals and greater reliability than other valve body types.

The Monarch also features a provision for a pre-valve relief valve and your choice of a manual worm gear or pneumatic actuator or electric rotary actuator.

Specifications

Jamesbury Wafer-Sphere®¹

- Flexible lip seat allows tight shut-off and compensates for wear. Does not require additional O-rings or fillers to maintain tightness.
- Offset shaft and patented seat design reduces opening and closing torque.
- Easy seat maintenance. Remove the body's insert and replace the seat. Disassembly of the disc and shaft connection is not required.

¹From Jamesbury Wafer-Sphere® Specification Sheet W101-6

5-Inch or 6-Inch NH Nipple

Available in three different lengths with or without a pump valve provision:

- 76-1/4" (intake end to intake end)
- 78-1/4" (intake end to intake end)
- 80-1/4" (intake end to intake end)
